**Words from our judge**

It truly was a pleasure to judge this show, and I was indeed excited to learn that the entry was so good. Thank you for showing your wonderful dogs for me. I loved every minute of the well-organized show, and I was very happy with the quality of the dogs being shown.

I found that the overall type didn't vary as much as I'm used to in Europe. You have good size and bone, typical heads and nice dark eyes of good shape. I appreciate these features as well as effortless movement with a good, long stride, which was a deciding factor for me when finding my winners.

Generally, I found the bitches a bit better than the males. I especially liked the size and substance in most of the bitches.

All dogs were all very well presented, and I really enjoyed the excellent atmosphere around the ring. Thank you all for being how you are. You are all very happy, kind and with good sportsmanship – just like our beloved dogs 😊

Again, thank you so much for this wonderful experience, which I will remember and treasure for a long time. I wish all the best to all of you.
